

Assignment #01 (PF)

Harris Khan

SAP ID: 68427

Q1:

Step by step procedure to solve a problem is called Algorithm.

Step 1: Start

Step 2: Firstly take the bowl and wash it

Step 3: Turn on the stove.

Step 4: Add a cup of water.

Step 5: Add teaspoons of sugar. and

Step 6: Add milk.

Step 7: Boil the mixture for 2-4 minutes.

Step 8: Stir it and Enjoy.

Step 9: Stop.

Q2:

Flowchart is a diagram that shows the steps of an algorithm using shapes and arrows.

Maxim.....

- Easy to understand.
- Easy to detect errors.
- makes communication and explanation simple.

Q2: b

Step 1: Start

Step 2: Input a first number as A.

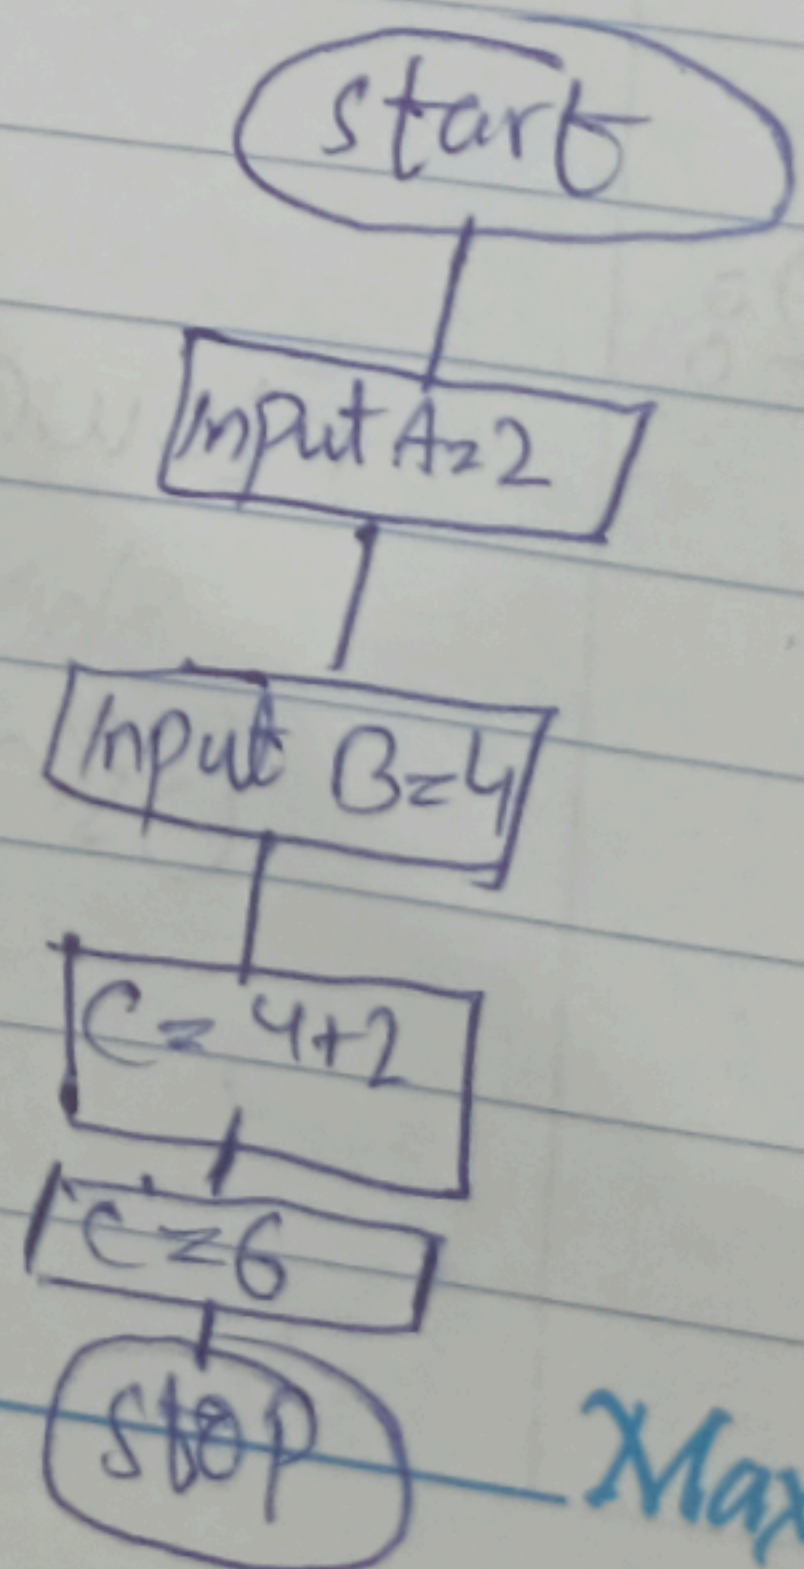

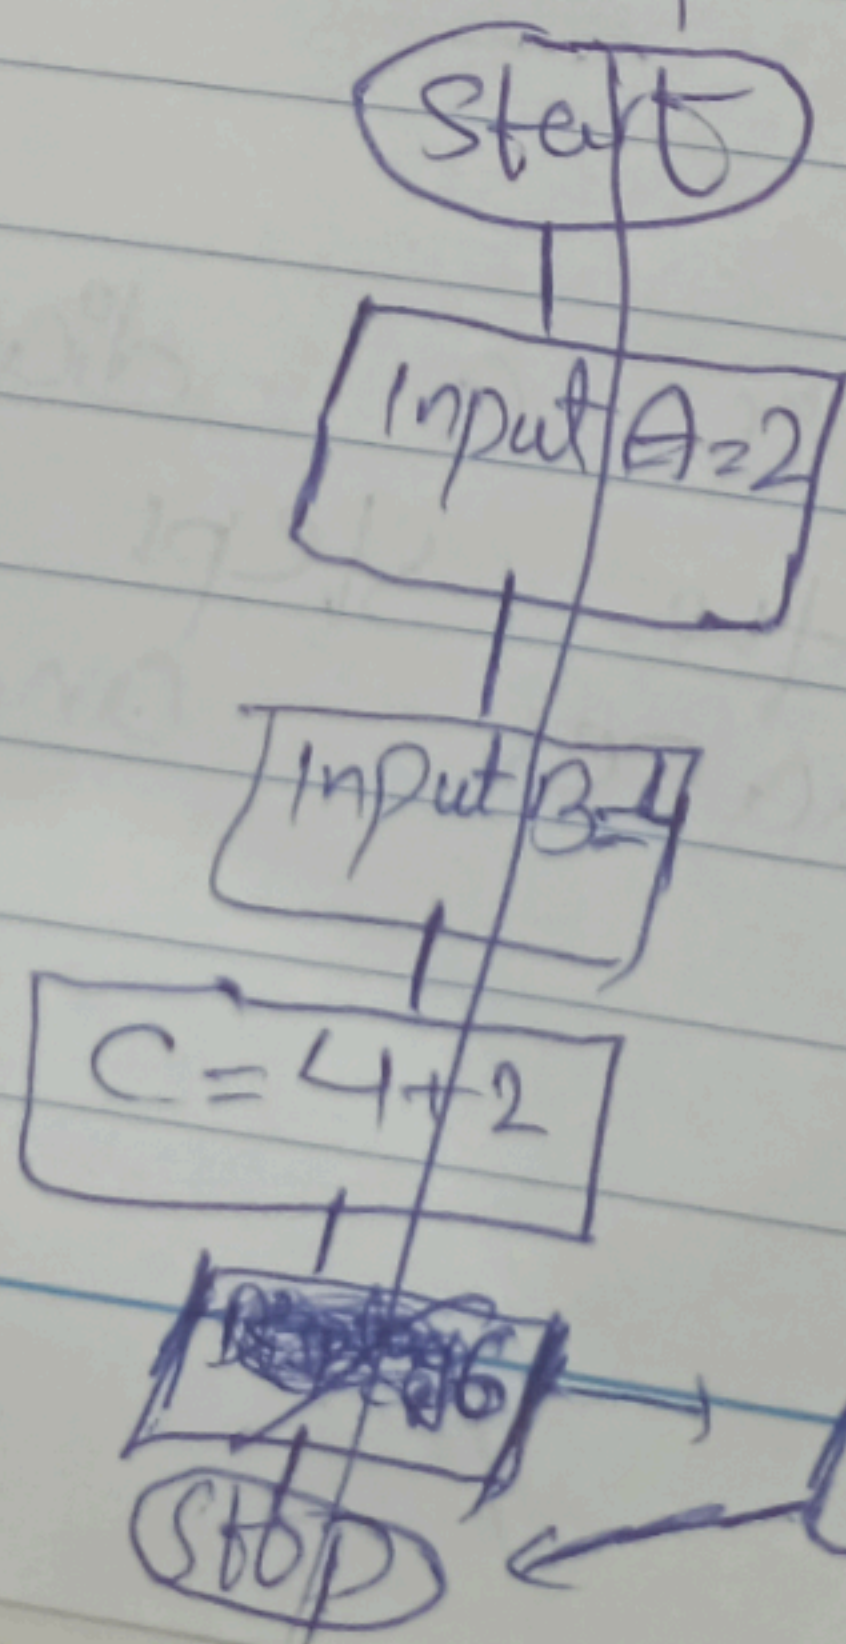

Step 3: Input a second number as B.

Step 4: ~~Add the both numbers as $C = A + B$~~

Step 4: Take the sum of the both numbers as $C = A + B$.

Step 5: Stop

Flowchart:

Maxim

Q 3:

Algorithm:

Step 1: Start

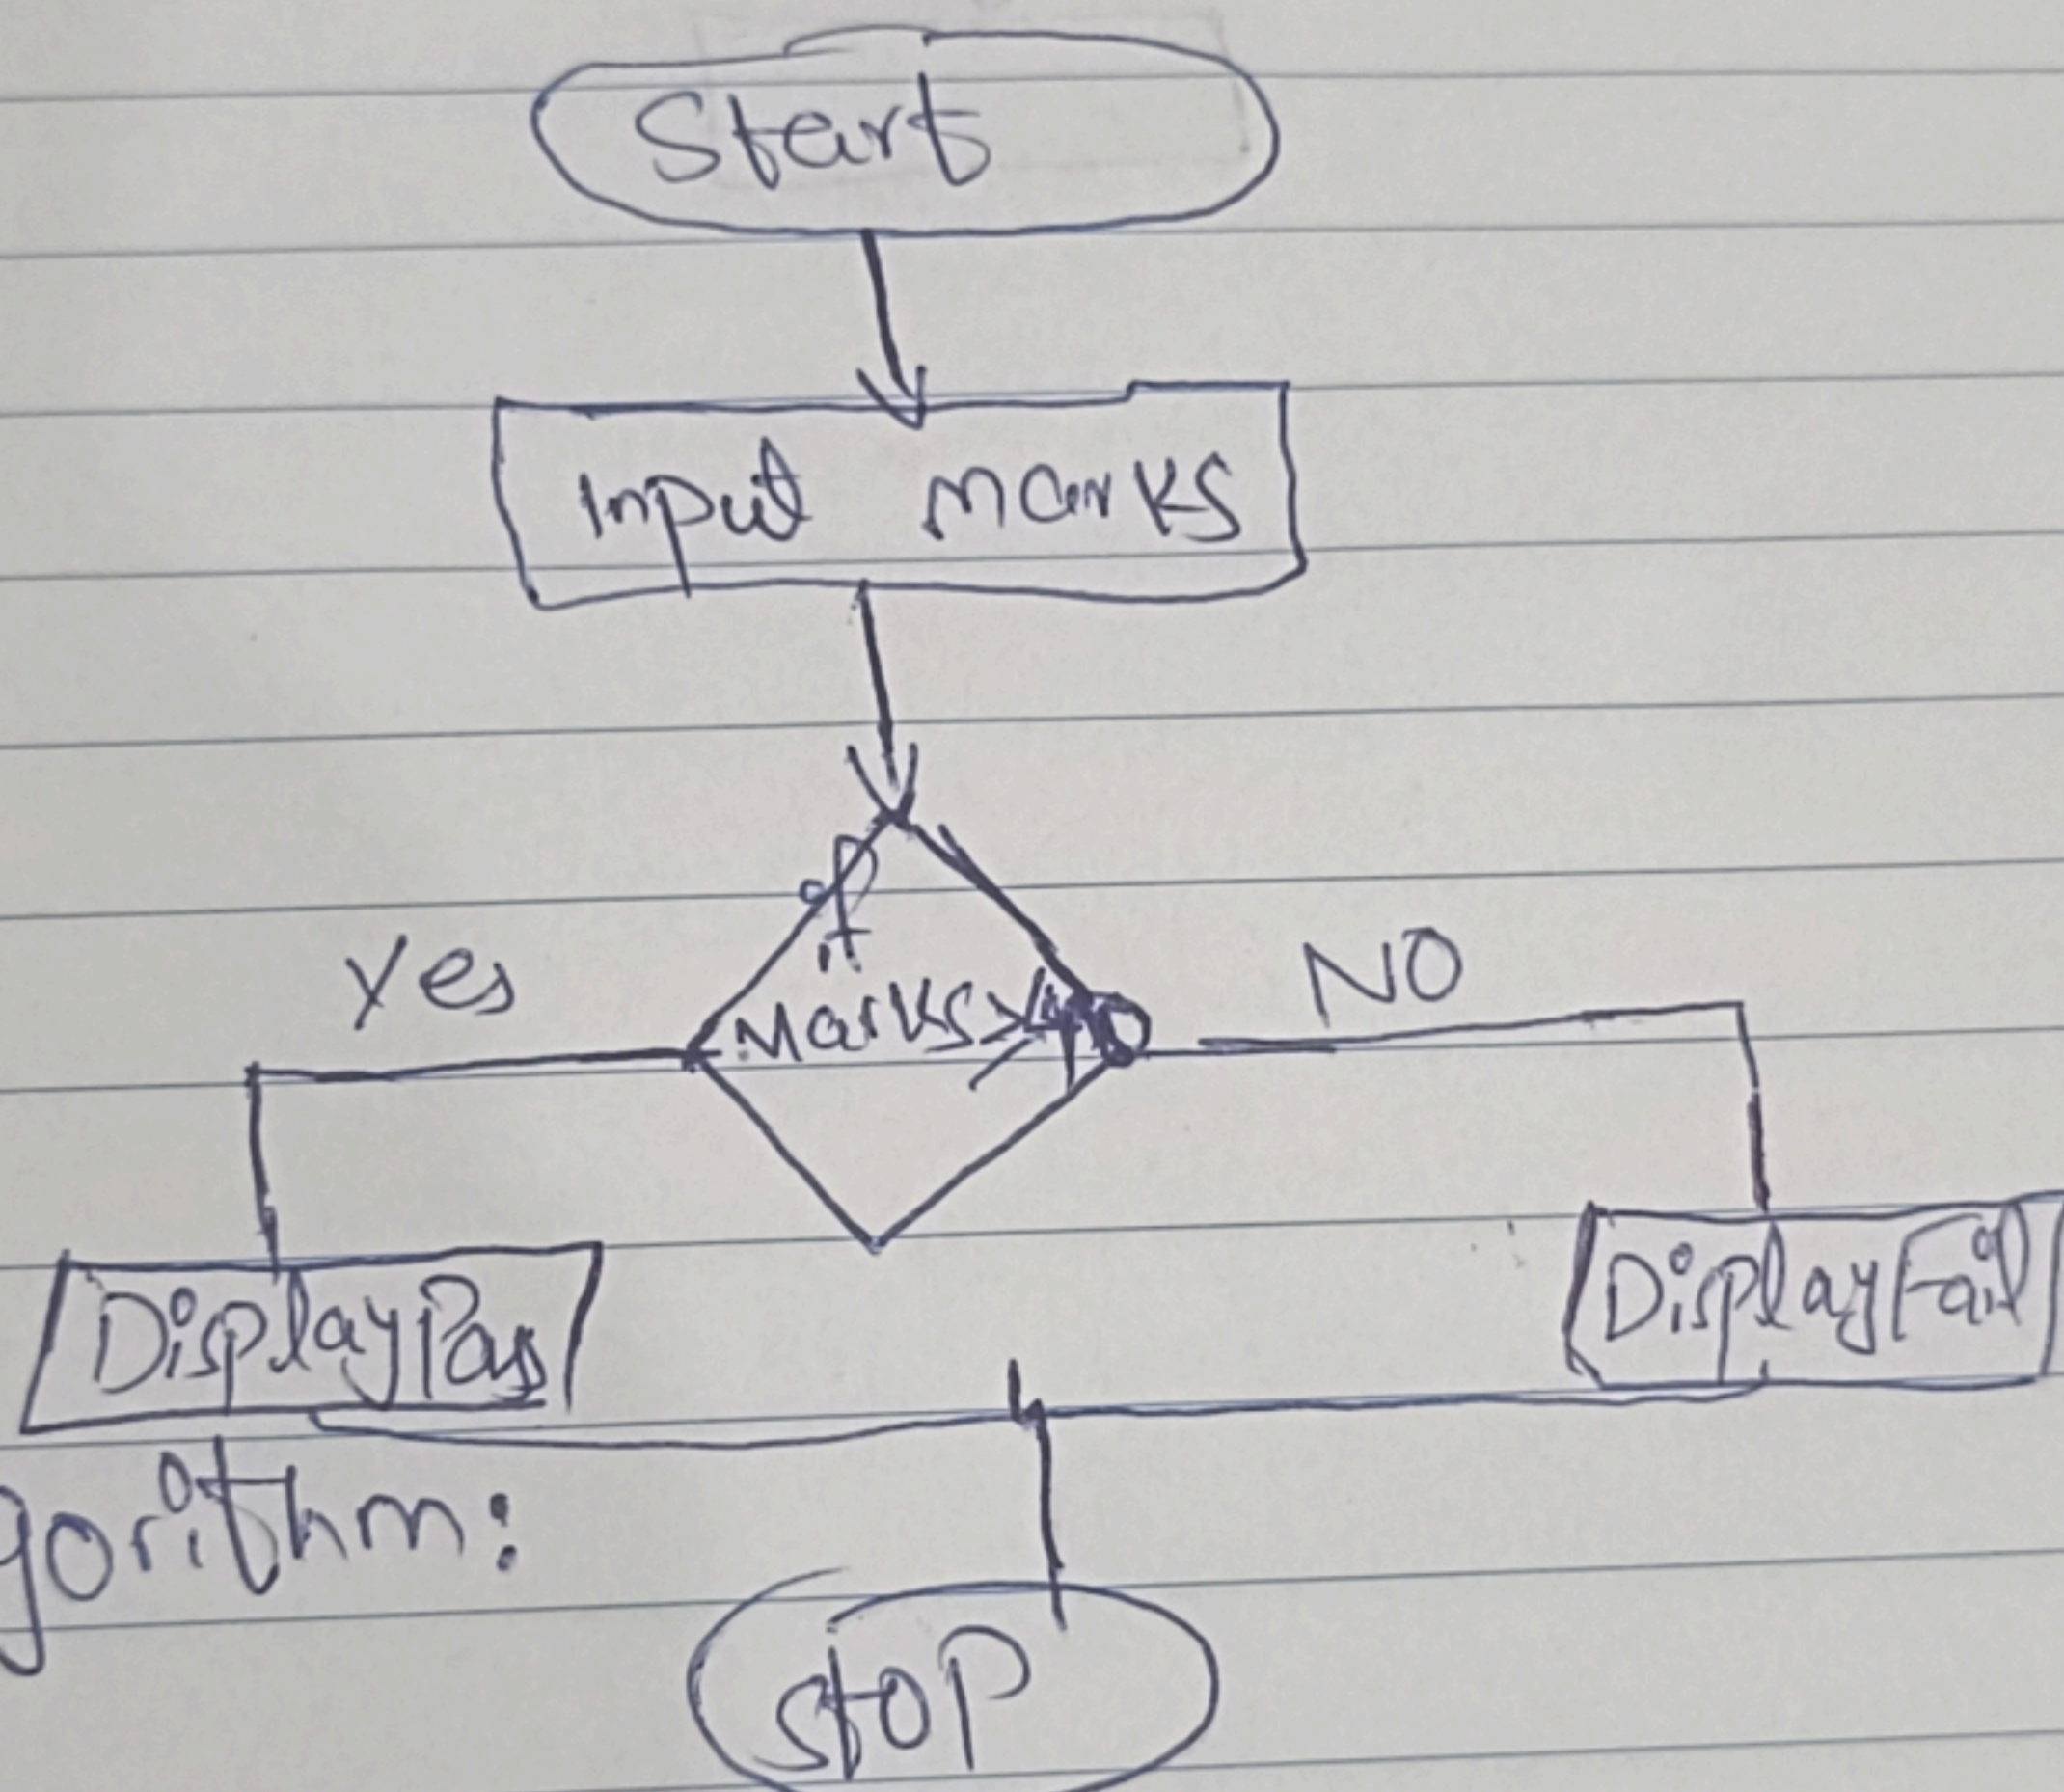

Step 2: Input marks

Step 3: if marks $\geq$ 40, display Pass.

Step 4: if marks $<$ 40, display Fail.

Step 5: Stop

Flow chart:

Algorithm:
